## SL-CAB2-DB500S-V5
connection cable

MONO

PRODUCT PROPERTIES

» MONO connection cable with 500 mm length and SIRO MONO plug
» solder-less connection system
» 2-wire cable (black / red)
» **suitable for 8 mm wide MONO LED stripes**
» round 22 AWG
» connection to LED stripes through simple clasp system
» packaging unit: 5 pcs

DIMENSIONS

» cable length:... 500 mm
» pin distance: .... 3,6 mm
» LED stripe width:.. 8 mm
» LED stripe thickness:... 0.2~0.4 mm

TECNICAL SPECIFICATIONS

» nominal current: .... 6 A
» AWG:.. 20-22 AWG
» IP:... 20
» operating temperature:................................... -35° - +60° C
» storage temperature: .... -35° - +80° C

SAFETY- AND ASSEMBLYHINTS

» this product is not a toy and not suitable for children!
» the assembly has to be done without an electric current!
» the LED products have quite fragile, electric components which shouldn't be put under mechanical stress.
» mount the LED stripes onto immovable components, which are free from tensions.
» try to avoid mechanical stresses like folding, bending or scrubbing.
