SL-CAB2-SS
connection plug

PRODUCT PROPERTIES
» MONO LED connection plug
» 2 pole plug connector
» solder-less connection
» **suitable for 8 mm wide MONO LED stripes**
» connection to LED stripes through simple clasp system
» packaging unit: 1 pcs

DIMENSIONS

» length:	20,6 mm
» width:	11,0 mm
» height:..	4,5 mm
» pin distance:	3,6 mm
» LED stripe width:..	8 mm
» LED stripe thickness:..	0.2~0.4 mm

TECNICAL SPECIFICATIONS

» nominal current:	6 A
» IP	20
» operatingtemperature:.....................................	-35° - +60° C
» storage temperature:	-35° - +80° C

SAFETY- AND ASSEMBLYHINTS

» this product is not a toy and not suitable for children!
» the assembly has to be done without an electric current!
» the LED products have quite fragile, electric components which shouldn't be put under mechanical stress.
» mount the LED stripes onto immovable components, which are free from tensions.
» the SIRO LED system has to be used indoors. Unprotected use outdoors is not permitted. The contact with moisture/fluids has to be avoided at all costs!
