

## SL-CAB3-DB-500

connection cable

### PRODUCT PROPERTIES

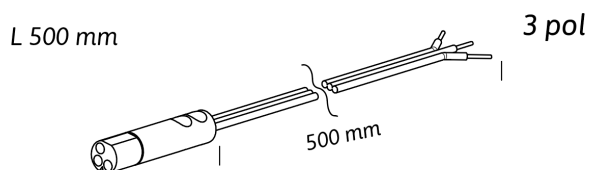

- » DUO connection cable
- » 500 mm 3-wire flat cable with DUO connection plug and tinned wire ends
- » AWG 22 cable // DUO connection plug max. 6A
- » 24V DC

### DIMENSIONS

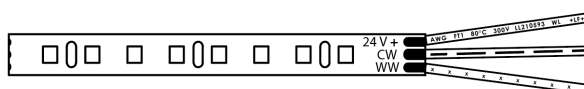

- » length: ..... 500 mm
- » diameter: ..... 8 mm

### TECHNICAL TRAITS

- » plug connection for simple handling during the assembly
- » tinned wire ends auf at the connection side
- » prepared for the soldering
- » check the labels for correct wiring

### CONNECTION SCHEME

### SAFETY- AND ASSEMBLYHINTS

- » the assembly of LED components has to be done under correct regulations by a licensed professional.
- » this product is not a toy and not suitable for children!
- » the assembly has to be done without an electric current!
- » the LED products have quite fragile, electric components which shouldn't be put under mechanical stress.
- » mount the LED stripes onto immovable components, which are free from tensions.
- » the SIRO LED system has to be used indoors. Unprotected use outdoors is not permitted. The contact with moisture/fluids has to be avoided at all costs!
